

# BUILD A TURKEY

A Pattern  
Block Center

# HOW TO USE THIS ACTIVITY:

1. Print, laminate, and cut out enough turkey bodies for a center or one for each student depending on how you plan to use this activity.
2. Tape the bodies to the table so they don't drive your kids crazy moving all over the place.
3. Give your students pattern blocks to create feathers. You can discuss symmetry and have them make symmetrical feathers or feathers up to you.
4. Students count how many of each shape they used and record on the sheet provided.
5. You can also have students draw their turkey on the back of the page. They always turn out a little off, but it is great for really paying close attention to shape attributes and positions.
