HOW TO USE THESE EXIT TICKETS

These exit tickets were designed to use with any text you choose. This may be a class read aloud, a book you read to a small group, or a book students read independently as part of their guided reading group.

Because the first grade standards build on the previous kindergarten standards, you will notice many similarities to the kindergarten versions of these exit tickets. In kindergarten, students can meet the standards with prompting and support, while in first grade students are showing understanding independently.

It may be necessary, depending on students' writing abilities, to have students dictate their response or explain their response more in depth in order to gauge their true understanding of a concept. A student's writing ability should not hinder their ability to show understanding of literature concepts.
