# EXIT TICKETS

Operations & Algebraic Thinking

Third Grade

Three overlapping 'Exit Ticket' worksheets are shown. The top worksheet is titled 'Exit Ticket' and asks to 'Solve each equation.' It contains two multiplication problems:  $1 \times 3 = 3$  and  $7 \times 7 = 49$ . The middle worksheet is titled 'Exit Ticket' and asks to 'Write the equation for each array.' It shows an array of 12 donuts arranged in 3 rows and 4 columns, and another array of 6 donuts arranged in 2 rows and 3 columns. The bottom worksheet is titled 'Exit Ticket' and asks to 'Use the array to decompose  $4 \times 8$  and show the steps you took to solve the equation.' It includes a 4x8 grid and a blank equation line.
